

# Index to Volume 4

- 1 is the Winter 1993/94 issue  
2 is the Spring 1994 issue  
3 is the Summer 1994 issue  
4 is the Autumn 1994 issue

## AUTHORS

- Amiran, Mohsen C., and Wilde, Charles L. PAH Removal Using Soil and Sediment Washing at a Contaminated Harbor Site, No. 3, 319-330
- Ammann, Paul R., and Koch, Gayle S. Technical and Economic Analyses in the Development of Bioremediation Processes, No. 1, 115-128
- Barbour, Richard, Sirabian, Russell, and Sanford, Theodore. UV Peroxidation with Air Stripping for Optimized Removal of VOCs from Groundwater, No. 2, 189-205
- Bohm, Robert A., Elliott, Steven R., Hwang, Ho-Ling, Peretz, Jean H., and Tonn, Bruce. Hazardous Waste Capacity Assurance Planning: Volumes for One-Time Remediation, No. 4, 405-424
- Bryda, Lisa K., and Sellman, Catherine L. State Soil Cleanup Levels, No. 4, 475-489
- Catherman, David, Goldschmidt, William, and Gallis, David. On-Site Analytical Support: A Cost-Effective Alternative to Fixed Laboratory Services, No. 4, 425-433
- Chrostowski, Paul. Risk Assessment and Accepted Regulatory Cleanup Levels, No. 4, 383-398
- Crim, Michael C., Farley, James A., and Hunter, G. Bradley. Technical Feasibility and Conceptual Design for Using Supercritical Fluid to Extract Pesticides from Aged Soil, No. 3, 301-318
- DeFeo, Brent. Removal and Recovery of Creosote Sludge at a Wood Treatment Plant, No. 4, 467-474
- Elliott, Steven R., Hwang, Ho-Ling, Peretz, Jean H., Tonn, Bruce, and Bohm, Robert A. Hazardous Waste Capacity Assurance Planning: Volumes for One-Time Remediation, No. 4, 405-424
- Farley, James A., Hunter, G. Bradley, and Crim, Michael C. Technical Feasibility and Conceptual Design for Using Supercritical Fluid to Extract Pesticides from Aged Soil, No. 3, 301-318
- Fornino, Robin L. Performing a Regulatory Compliance Audit: Guidance for Environmental Managers, No. 4, 399-404
- Fox, Catherine A. Review of Recent Publications, No. 1, 149-152
- Fox, Catherine A. Review of Recent Publications, No. 2, 265-268
- Fox, Catherine A. Review of Recent Publications, No. 3, 373-377
- Fox, Catherine A. Review of Recent Publications, No. 4, 491-495
- Frederick, Raymond M., and Krishnamurthy, S. Soil Washing Treatability Tests for Pesticide-Contaminated Soil, No. 4, 443-453
- Frederick, Raymond M., and Krishnamurthy, S. Using Biopolymers to Remove Heavy Metals from Soil and Water, No. 2, 235-244
- Gallis, David, Catherman, David, and Goldschmidt, William. On-Site Analytical Support: A Cost-Effective Alternative to Fixed Laboratory Services, No. 4, 425-433
- Gatliff, Edward G. Vegetative Remediation Process Offers Advantages over Traditional Pump-and-Treat Technologies, No. 3, 343-352
- Goldschmidt, William, Gallis, David, and Catherman, David. On-Site Analytical Support: A Cost-Effective Alternative to Fixed Laboratory Services, No. 4, 425-433
- Haasbeek, John F. Effects of Cosolvency in the Fate and Transport of PCBs in Soil, No. 3, 331-341
- Hildebrand, Linda F., and Maxwell, R. Steven. Improved Direct Push Technologies: Quicker and Cheaper On-Site Methods for Sampling and Monitoring, No. 4, 435-442
- Huggins, C.B., V, and Money, Robert D. Risk Assessment: A Site-Specific Approach to Establishing Acceptable Soil Cleanup Levels, No. 3, 285-300

- Hunter, G. Bradley, Crim, Michael C., and Farley, James A. Technical Feasibility and Conceptual Design for Using Supercritical Fluid to Extract Pesticides from Aged Soil, No. 3, 301-318
- Hutton, Joseph H., and Shanks, Robert. Thermal Desorption of PCB-Contaminated Waste at the Waukegan Harbor Superfund Site, No. 2, 207-222
- Hwang, Ho-Ling, Peretz, Jean H., Tonn, Bruce, Bohm, Robert A., and Elliott, Steven R. Hazardous Waste Capacity Assurance Planning: Volumes for One-Time Remediation, No. 4, 405-424
- Jackson, Richard E. Surfactant-Enhanced Remediation of DNAPL Zones in Granular Aquifer Systems, No. 1, 77-91
- Jerger, Douglas E., and Woodhull, Patrick M. Bioremediation Using a Commercial Slurry-Phase Biological Treatment System: Site-Specific Applications and Costs, No. 3, 353-362
- Johnson, Nancy. On-Site Remediation of PCB Contamination Using Transportable Incineration Systems, No. 2, 223-234
- Koch, Gayle S., and Ammann, Paul R. Technical and Economic Analyses in the Development of Bioremediation Processes, No. 1, 115-128
- Korfiatis, George P., and Talimcioglu, Nazmi M. IMPACT: A Model for Calculation of Soil Cleanup, No. 2, 175-188
- Kraeski, Michael, and MacGregor, Alan. Stabilization and Delisting of Hazardous Wastes: An Effective Approach for Reducing High Sludge Disposal Costs, No. 4, 455-466
- Krishnamurthy, S., and Frederick, Raymond M. Soil Washing Treatability Tests for Pesticide-Contaminated Soil, No. 4, 443-453
- Krishnamurthy, S., and Frederick, Raymond M. Using Biopolymers to Remove Heavy Metals from Soil and Water, No. 2, 235-244
- Lichten, Steven M. Risk Communication as a Key Component of a Successful Remediation Project, No. 1, 1-22
- McCullough, Matthew L., Morabito, Joseph R., and Rodriguez, Thomas E. Understanding the RCRA Corrective Action Process, No. 1, 43-58
- MacGregor, Alan, and Kraeski, Michael. Stabilization and Delisting of Hazardous Wastes: An Effective Approach for Reducing High Sludge Disposal Costs, No. 4, 455-466
- Manuele, Vincent O. Alternative Contracting Strategies for Controlling Costs and Avoiding Performance Disputes on Remediation Projects, No. 1, 23-41

- Tonn, Bruce, Bohm, Robert A., Elliott, Steven R., Hwang, Ho-Ling, and Peretz, Jean H. Hazardous Waste Capacity Assurance Planning: Volumes for One-Time Remediation, No. 4, 405-424
- Widdowson, Mark A., Suddeth, Charles K., and Scaturro, David M. Cost-Effective Contaminant Plume Delineation Using Multilevel Drive Point Samplers, No. 1, 59-76
- Wilde, Charles L., and Amiran, Mohsen C. PAH Removal Using Soil and Sediment Washing at a Contaminated Harbor Site, No. 3, 319-330

- Woodhull, Patrick M., and Jerger, Douglas E. Bioremediation Using a Commercial Slurry-Phase Biological Treatment System: Site-Specific Applications and Costs, No. 3, 353-362

## ANALYTICAL SUPPORT

- On-Site Analytical Support: A Cost-Effective Alternative to Fixed Laboratory Services, William Goldschmidt, David Gallis, and David Catherman, No. 4, 425-433

## ASSESSMENT

- A Systematic Approach to Estimating the Assessment Phase of a Remediation Project, Michael A. Morse, No. 2, 157-173

## BIOLOGICAL TREATMENT SYSTEMS

- Improved Methodology for Designing and Operating Biological Treatment Systems, Alan F. Rozich, No. 2, 245-250

## BIOREMEDIATION

- Bioremediation Using a Commercial Slurry-Phase Biological Treatment System: Site-Specific Applications and Costs, Patrick M. Woodhull and Douglas E. Jerger, No. 3, 353-362

## Literature Reviewed

- Bioremediation in the Field*, Environmental Protection Agency, No. 1, 150
- Bioremediation Resource Guide*, Environmental Protection Agency, No. 2, 268
- Bioremediation Using the Land Treatment Concept*, Pope and Matthews, No. 2, 267-268
- In Situ Bioremediation of Contaminated Unsaturated Subsurface Soils*, Sims, Sims, DuPont, Matthews, and Russell, No. 3, 376-377

## CAPACITY ASSURANCE PLANNING

- Hazardous Waste Capacity Assurance Planning: Volumes for One-Time Remediation, Jean H. Peretz, Bruce Tonn, Robert A. Bohm, Steven R. Elliott and Ho-Ling Hwang, No. 4, 405-424

## CHEMICAL CONTAMINANTS

### Literature Reviewed

- Chemical Contaminants on DOE Lands*, U.S. Department of Energy, No. 1, 150-151

## COMBUSTION PARAMETERS

### Literature Reviewed

Influence of Combustion Parameters on the Formations of Polychlorinated Dibenzodioxins, Dibenzofurans, Benzenes, and Biphenyls and Polyaromatic Hydrocarbons in a Pilot Incinerator, Fangmark, van Bavel, Marklund, Stromberg, Berge, and Rappe (*Environmental Science and Technology*), No. 2, 265-266

## COMPLIANCE AUDIT

Performing a Regulatory Compliance Audit: Guidance for Environmental Managers, Robin L. Fornino, No. 4, 399-404

## CONTAMINANT PLUME DELINEATION

Cost-Effective Contaminant Plume Delineation Using Multilevel Drive Point Samplers, Mark A. Widdowson, Charles K. Suddeth, and David M. Scaturo, No. 1, 59-76

## CONTAMINATED SEDIMENT

### Literature Reviewed

Selecting Remediation Techniques for Contaminated Sediment, Environmental Protection Agency, No. 1, 151-152

## CONTRACTING

Alternative Contracting Strategies for Controlling Costs and Avoiding Performance Disputes on Remediation Projects, Vincent O. Manuele, No. 1, 23-41

## COST CONTROL

Alternative Contracting Strategies for Controlling Costs and Avoiding Performance Disputes on Remediation Projects, Vincent O. Manuele, No. 1, 23-41

Cost-Effective Contaminant Plume Delineation Using Multilevel Drive Point Samplers, Mark A. Widdowson, Charles K. Suddeth, and David M. Scaturo, No. 1, 59-76

## DNAPLS

Surfactant-Enhanced Remediation of DNAPL Zones in Granular Aquifer Systems, Richard E. Jackson, No. 1, 77-91

## ELECTROOSMOSIS

### Literature Reviewed

Removal of Contaminants from Saturated Clay by Electroosmosis, Shapiro and Probst (*Environmental Science and Technology*), No. 2, 266-267

## GROUNDWATER

Alternative Method of Groundwater Sparging for Petroleum Hydrocarbon Remediation, Steve Scheffler, Todd W. Schrauf, and Leslie H. Pennington, No. 1, 93-114

UV Peroxidation with Air Stripping for Optimized Removal of VOCs from Groundwater, Russell Sirabian, Theodore Sanford, and Richard Barbour, No. 2, 189-205

### Literature Reviewed

Beneficial Effects of Plants in the Remediation of Soil and Groundwater Contaminated with Organic Materials, Shimp, Tracy, Davis, Huang, Erickson, and Schnoor (*Environmental Science and Technology*), No. 2, 265

Compilation of Groundwater Models, van der Heijde and Elnawawy, No. 2, 268

Complex Mixtures and Groundwater Quality, Brusseau, No. 2, 267

## HAZARDOUS WASTES

Stabilization and Delineation of Hazardous Wastes: An Effective Approach for Reducing High Sludge Disposal Costs, Alan MacGregor and Michael Kraeski, No. 4, 455-466

## HEAVY METALS

Using Biopolymers to Remove Heavy Metals from Soil and Water, S. Krishnamurthy and Raymond M. Frederick, No. 2, 235-244

## INCINERATION

On-Site Remediation of PCB Contamination Using Transportable Incineration Systems, Nancy Johnson, No. 2, 223-234

## LEAD

### Literature Reviewed

Lead: A Guidebook to Hazard Detection,

*Remediation, and Control*, Cheremisinoff and Cheremisinoff, No. 1, 149-150

# MISCELLANEOUS

## Literature Reviewed

*The Clean Air Marketplace*, Environmental Protection Agency, No. 3, 376

# MONITORING

Improved Direct Push Technologies: Quicker and Cheaper On-Site Methods for Sampling and Monitoring, R. Steven Maxwell and Linda F. Hildebrand, No. 4, 435-442

# PCBS

Effects of Cosolvency in the Fate and Transport of PCBs in Soil, John F. Haasbeek, No. 3, 331-341  
On-Site Remediation of PCB Contamination Using Transportable Incineration Systems, Nancy Johnson, No. 2, 223-234  
Thermal Desorption of PCB-Contaminated Waste at the Waukegan Harbor Superfund Site, Joseph H. Hutton and Robert Shanks, No. 2, 207-222

# PLASTICS

*Commentary: A Paradigm for Plastics Recycling*, Barry O. Shorthouse, No. 1, 129-133

# POLYAROMATIC HYDROCARBONS

PAH Removal Using Soil and Sediment Washing at a Contaminated Harbor Site, Mohsen C. Amiran and Charles L. Wilde, No. 3, 319-330

# PULP MILL EFFLUENTS

## Literature Reviewed

Effect of Biological Treatment on Halogenated Organics in Bleached Kraft Pulp Mill Effluents Studied by Molecular Weight Distribution Analysis, Laine, Ek, and Salkinoja-Salonen (*Environmental Science and Technology*), No. 1, 149

# RCRA

Understanding the RCRA Corrective Action Process, Matthew L. McCullough, Joseph R. Morabito, and Thomas E. Rodriguez, No. 1, 43-58

# RECENT DEVELOPMENTS IN CLEANUP TECHNOLOGIES

Groundwater Remediation, John A. Simon and Jacqueline P. Thiell, No. 1, 135-147  
In-Situ Chemical Mobilization, Remediation, and Monitoring of Contaminated Sediments, Rosalind M. Segesta and Louis J. Thibodeaux, No. 2, 251-263  
Remedy Selection under Superfund, Amy M. Romano, No. 3, 363-371  
State Soil Cleanup Levels, Lisa K. Bryda and Catherine L. Sellman, No. 4, 475-489

# RECYCLING

*Commentary: A Paradigm for Plastics Recycling*, Barry O. Shorthouse, No. 1, 129-133

# REMEDATION TECHNOLOGY

The Challenge of Remediation Technology Development, R. Steven Maxwell, No. 3, 273-284

# RESEARCH

Technical and Economic Analyses in the Development of Bioremediation Processes, Paul R. Ammann and Gayle S. Koch, No. 1, 115-128

## Literature Reviewed

*Selection of Contaminant Mixtures for Subsurface Science Research*, U.S. Department of Energy, No. 1, 150-151

# RISK ASSESSMENT

Risk Assessment: A Site-Specific Approach to Establishing Acceptable Soil Cleanup Levels, C.B. Huggins, V and Robert D. Money, No. 3, 285-300  
Risk Assessment and Accepted Regulatory Cleanup Levels, Paul Chrostowski, No. 4, 383-398

## Literature Reviewed

*Ecologic Risk Assessment*, Suter, No. 3, 375-376

# RISK COMMUNICATION

Risk Communication as a Key Component of a Successful Remediation Project, Steven M. Lichten, No. 1, 1-22

## **SAMPLING**

Improved Direct Push Technologies: Quicker and Cheaper On-Site Methods for Sampling and Monitoring, R. Steven Maxwell and Linda F. Hildebrand, No. 4, 435-442

## **SEDIMENT REMEDIATION**

### **Literature Reviewed**

Getting Down and Dirty, Zagula and Beitingner (*Industrial Wastewater*), No. 3, 374-375

## **SLUDGE**

Removal and Recovery of Creosote Sludge at a Wood Treatment Plant, Brent DeFeo, No. 4, 467-474

Stabilization and Delisting of Hazardous Wastes: An Effective Approach for Reducing High Sludge Disposal Costs, Alan MacGregor and Michael Kraeski, No. 4, 455-466

## **SNOX PROCESS**

### **Literature Reviewed**

The SNOX Process: A Success Story, Durrani (*Environmental Science and Technology*), No. 3, 373-374

## **SOIL CLEANUP**

IMPACT: A Model for Calculation of Soil Cleanup, George P. Korfiatis and Nazmi M. Talimcioglu, No. 2, 175-188

## **SOIL CONTAMINATION**

Effects of Cosolvency in the Fate and Transport of PCBs in Soil, John F. Haasbeek, No. 3, 331-341

Soil Washing Treatability Tests for Pesticide-Contaminated Soil, Raymond M. Frederick and S. Krishnamurthy, No. 4, 443-453

Technical Feasibility and Conceptual Design for Using Supercritical Fluid to Extract Pesticides from Aged Soil, James A. Farley, G. Bradley Hunter, and Michael C. Crim, No. 3, 301-318

### **Literature Reviewed**

Beneficial Effects of Plants in the Remediation of Soil and Groundwater Contaminated with Organic Materials, Shimp, Tracy, Davis, Huang, Erickson, and Schnoor (*Environmental Science and Technology*), No. 2, 265

How Hot is That Spot, Hadley and Sedman (*Journal of Soil Contamination*), No. 2, 266

*In Situ Bioremediation of Contaminated Unsaturated Subsurface Soils*, Sims, Sims, DuPont, Matthews, and Russell, No. 3, 376-377

## **SOIL VACUUM EXTRACTION**

### **Literature Reviewed**

*Evaluation of Soil Venting Application*, DiGiulio, No. 3, 377

## **SUPERCritical FLUID**

Technical Feasibility and Conceptual Design for Using Supercritical Fluid to Extract Pesticides from Aged Soil, James A. Farley, G. Bradley Hunter, and Michael C. Crim, No. 3, 301-318

## **THERMAL DESORPTION**

Thermal Desorption of PCB-Contaminated Waste at the Waukegan Harbor Superfund Site, Joseph H. Hutton and Robert Shanks, No. 2, 207-222

## **VEGETATIVE REMEDIATION PROCESS**

Vegetative Remediation Process Offers Advantages over Traditional Pump-and-Treat Technologies, Edward G. Gatliff, No. 3, 343-352

## **VOCS**

UV Peroxidation with Air Stripping for Optimized Removal of VOCs from Groundwater, Russell Sirabian, Theodore Sanford, and Richard Barbour, No. 2, 189-205

## **WHITE ROT FUNGI**

### **Literature Reviewed**

Mechanisms White Rot Fungi Use to Degrade Pollutants, Barr and Aust (*Environmental Science and Technology*), No. 3, 373
